APPOINTMENT FOR ASSOCIATE HEAD – PROGRAMME (KARNATAKA)
ABOUT STIR EDUCATION

We are an international NGO that is addressing the moral and economic imperative that every child, everywhere, should have a teacher who cultivates the joy of lifelong learning. At a practical level, that means we support governments to reignite intrinsic motivation in teachers and local officials, through teacher networks. Our vision is a world where teachers love teaching and children love learning. In our sixth full year of operations, we are working with 200,000 teachers and 6 million children across 70 districts in India and Uganda.

OUR MODEL

We achieve this through a five-year learning partnership with an education system, where we align all levels of the education system (officials, teachers and children) around the goal of increasing intrinsic motivation.

Practically, this means that teachers undergo monthly network meetings with about 20 to 30 local peers. Through these meetings they’re supported to develop their practice in areas ranging from effective questioning to creating warm but orderly classroom routines – all designed to create a more effective relationship between the teacher and child. In doing so they develop a sense of autonomy (the sense they can change things), mastery (sense of getting better as a professionals) and purpose (reconnecting emotionally with their peers and students) – the key drivers of intrinsic motivation.

District officials undergo a training and coaching programme that motivates and supports them to prioritise, run and monitor the teacher networks and a close partnership with the state or national government enables the government to align this intrinsic motivation approach within their priorities, structures and systems.

The approach is run by the government from day one and after about five years of partnering with an education system we hope to have embedded a culture of improvement at all levels for the system to continue to strengthen itself. We typically allocate one member of our own staff per district to train, energise and coach the district officials running the approach, and a small team at the national or state level.

OUR VALUES

How we approach our work is as important as what we do and our core values guide the way:

Humility – We don’t have all the answers upfront.

Ownership – We empower each other with high expectations & support.

Openness – We will listen, learn and improve, and lead through obstacles.

Purpose – We’re united by a shared vision we’ll build & achieve together.
